

INTRODUCTION

Business Analytics and Data Science student with hands-on experience in financial analysis, KPI development, and project forecasting across consulting simulations and internships. Skilled in Python, SQL, Power BI, and Excel, with experience in building dashboards, analysing performance metrics (CPI, SPI), and deriving data-driven insights to support business and strategic decision-making. Experienced in product strategy and cross-functional collaboration across the product lifecycle, from defining requirements to analysing post-launch performance.

AREAS OF INTEREST

Business Analytics, Data Analytics, Product Management,Project Management, Operations and Supply Chain Analytics, Strategy and Decision Making

ACADEMIC QUALIFICATIONS

Bachelor of Business Administration (BBA), Business Analytics <i>Christ (Deemed to be University), Pune - Lavasa</i>	2023 – 2026 <i>GPA: 3.65/4</i>
Foundation in Data Science <i>Indian Institute of Technology, Madras</i>	2024 – 2025 <i>6.17/10</i>
Higher Secondary (State Board) <i>K.L.E’s College Of Commerce, Hubballi</i>	2020 – 2022 <i>91.5%</i>
Secondary (CBSE Board) <i>K.L.E’s M.R. Sakhare’s English Medium School, Hubballi</i>	2019 – 2020 <i>83%</i>

INTERNSHIP AND OTHER EXPERIENCE

Sammaan Capital Ltd. - Conducted financial benchmarking and ratio analysis for 40+ banks, NBFCs, and HFCs, improving peer comparison accuracy for investor presentations. - Performed regulatory research and credit rating analysis, identifying 5+ sectoral and compliance trends used in internal reporting. - Contributed to Q1 FY26 investor presentations, integrating peer comparisons and financial insights to support strategic decision-making.	June 2025 – August 2025
Research Club Assistant Secretary - Coordinated research initiatives, managed research papers and patents, and supported academic conferences.	January 2025 – December 2025
Saiujyam (NGO) Supported educational programs for 50+ underprivileged students, contributing to measurable improvements in attendance and learning outcomes.	June 2024 – July 2024
Centre for Social Action (CSA) - Subhead: Education and Skill Development Cohort. - Engaged in initiatives focused on providing educational support to children in village areas and conducting donation drives to aid local communities.	May 2024 – April 2025
Student Welfare Office (SWO) - Volunteer: Technical team - Assisted in managing and fulfilling technical requirements for university-level events organised by SWO.	September 2023 – May 2024

SKILLS

Programming & Analytics: Python, R, SQL

Data Visualisation: Power BI, Tableau

Tools: Excel (Advanced: Pivot Tables, VLOOKUP, Dashboards), Power Query, MySQL, SPSS, SmartPLS, Figma, Confluence, Google Analytics, Balsamiq

Product and Project Management: Agile / Scrum Methodology, Jira, Jira Product Discovery, Aha! Roadmaps, Productboard, Mixpanel, Amplitude, Miro, Kraftful GPT

Concepts: Data Analysis, KPI Development, Dashboarding, Stakeholder Reporting, Financial Analysis, EAC Forecasting, MVP Development, PRD Documentation, Product Analytics, User Segmentation, AI Product Research, Agentic AI Funda, Product Roadmapping, Product Lifecycle Management, A/B Testing, User Stories, Backlog Management, Go-to-Market Strategy, Competitive Analysis, Customer Journey Mapping, Wireframing, Sprint Planning

PATENTS

FLEXIBLE WORKSPACE PARTITION (Patent No. 173318) : Designed a modular office partition that enhances flexibility, productivity, and privacy for modern workspaces.

Data Recording Device for HR Management (Patent No. 172937): Developed a device that improves HR data recording accuracy with a sleek, user-friendly interface.

PUBLICATIONS

Taxing the Digital Economy: Navigating Cross-Border E-Commerce, Platform-Driven Value Creation and Virtual Currencies in India – A Literature Review and Sentiment Analysis : ISBNNUMBER:978-81-985767-3-6
COMMERCE NEXUS - 2026

PROJECTS

- Siemens Commercial Project Manager

April 2026

 - Forecasted project cost at \$112M vs \$100M (+12%) using EAC based on current performance and cost trends
 - Evaluated project performance using CPI 0.89, SPI 1.03, and risk closure rate of 62% across key workstreams
 - Identified major cost overruns and proposed corrective actions to improve budget control and financial efficiency
- CBRE Project Management

April 2026

 - Designed 6 KPIs to track project progress, budget variance, and overall risk performance across phases
 - Built an interactive dashboard for real-time monitoring of construction milestones, timelines, and progress updates
 - Analysed project data trends to support better decision-making and improve overall project performance outcomes
- EA Product Management

March 2026

 - Analysed key KPIs including ARPU, retention, and session duration to evaluate overall user engagement levels
 - Segmented users based on behavioral patterns to identify high-value, at-risk, and inactive user groups
 - Generated actionable insights to improve product features, enhance user experience, and increase retention rates
- EY Technology Risk

February 2026

 - Identified IT risks across business processes impacting system reliability, security, and regulatory compliance
 - Developed 15+ audit questions to evaluate internal controls and assess risk mitigation effectiveness across systems
 - Assessed control effectiveness to support compliance requirements, audit readiness, and process improvement initiatives
- GE Aerospace

January 2026

 - Calculated fixture load capacity using a 1.5 safety factor based on engineering specifications and design constraints
 - Interpreted technical drawings to determine component dimensions, weight distribution, and optimal fixture placement
 - Supported safe fixture design to enable efficient engine disassembly, maintenance operations, and workflow optimisation
- Siemens Mobility

January 2026

 - Designed 6 KPIs aligned with construction progress, sustainability goals, and operational efficiency metrics
 - Analysed project data including +6 miles electrification and +4 miles track installation progress across regions
 - Evaluated performance trends to support project efficiency, resource optimisation, and strategic planning decisions
- BCG Strategy Consulting

February 2025

 - Completed a job simulation advising a telecom on profit decline, conducting research, modeling profitability, and presenting findings.
- Power BI Text Analysis Project

November 2024

 - Used Power BI add-ons to analyse emotional content and visualise sentiment trends, aiding data-driven decision-making.
- TATA Data Visualisation

July 2024

 - Completed a data visualisation simulation for Tata Consultancy Services, prepared client leadership questions, and created insights for executive decision-making.

NOTABLE COURSES

- Courses and Certifications:**
- Negotiation Fundamentals - ESSEC Business School
 - Programming for Everybody (Getting Started with Python) University of Michigan
 - Business Data Analysis Using Excel - 360DigiTMG
 - Eximius - Youth Entrepreneurship Program 2024 - IIM Bangalore
 - Statistical Modeling using SAS Platform - EduEdge Pro Pvt Ltd
 - Product Management A-Z: Hands-On, Real-World Simulation – Udemy (11.5 hrs)
 - Business Analytics Specialisation - Wharton University of Pennsylvania
 - Consumer Analytics
 - Operations Analytics
 - People Analytics
 - Accounting Analytics
 - Business Analytics Capstone

HOBBIES AND INTERESTS

Basketball, Flute, Tabla, Cooking, Photography, Cycling, Animation.
